## SUMMARY

---

Senior Full Stack Developer and Team Lead with 7+ years of experience building high-scale distributed systems. Specialized in C#, Angular, and cloud-native, event-driven microservices. Proven record of solving complex production issues, leading end-to-end system rewrites, and delivering robust, maintainable software in mission-critical environments.

## EXPERIENCE

---

**Infraedge:** Full stack developer. C#, Angular, MongoDB, PostgreSQL, Redis, Microservices, Kafka, RabbitMQ, AWS  
2024 - Present

Standardized Kafka-based data exchange across C# microservices, achieving zero data duplication and full data integrity.  
Diagnosed and resolved a complex race condition causing a 10% request failure rate through deep multi-system tracing and architectural corrections.

Designed and developed a high-performance Angular application integrated with multiple micro-frontends under strict client constraints.

**ONE:** Team leader. C#, Angular, SQL

2023 - 2024

Led the end-to-end modernization of a large legacy system, redesigning server, UI, and complex data models.

Owned system architecture and technical decision-making while leading a team of 4 developers.

Defined system specifications, managed task planning, and ensured on-time delivery of all milestones.

**Capitolis:** Back-end developer. Java, Kafka, Docker, Microservices

2022

Developed and maintained a large-scale financial system handling payments and loans for major banks and hedge funds.

Implemented new features, wrote unit tests, and diagnosed real-time production issues in a microservices environment.

**Mprest(Iron dome):** Full stack developer, C#, WPF, Angular, SQL

2021 - 2022

Maintained and extended a mission-critical defense system responsible for airborne threat detection and interception.

Debugged and resolved complex end-to-end issues across large-scale desktop and web applications.

**Sella group:** Full stack developer + lecturer. C#, JS, HTML, SQL

2019 - 2021

Developed and maintained desktop and web applications for a global retail client.

Expanded backend APIs and improved data handling and UI test coverage.

Served as a lecturer, mentoring developers and delivering technical training.

## EDUCATION

---

Sela college - Master of Software Development course

## SKILLS

---

**Languages:** C# • Java • JavaScript

**Frontend:** Angular • WPF • HTML

**Backend & Data:** REST • Entity Framework • SQL • PostgreSQL • MongoDB • Redis • Unit tests

**Messaging & Architecture:** Kafka • RabbitMQ • Microservices

**Cloud & DevOps:** AWS • GCP • Docker • Git
